

Dr. Shawna A. Flanagan  
Brittany Zimmerman PA-C

### **SCULPTRA AFTERCARE**

1. Massage treated areas 5 times a day for 5 min for 1 week following treatment.
2. Unlike with other fillers, Sculptra effects show up over time. Once the swelling goes down following your initial treatment it may take several weeks to months to see the full effects of treatment as Sculptra is designed to help stimulate the body's own natural collagen.
3. Everyone has a unique requirement regarding the amount of Sculptra that it takes to achieve that desired result. Usually at least 3-4 treatment sessions are needed to obtain full results.
